

**what makes
Goolella PS its
own special
place?**

**what do you
want your
children to look
back on from
their time here
and appreciate?**

Here's what the Board said.

educational goals

We want the Kids in the Blue Shirts to be independent thinkers, able to constructively bring together their own original ideas with the ideas they interact with in the world around them.

journey of growth

A caring school community full of support and psychological safety helps to scaffold the way the Kids in the Blue Shirts make their developmental journeys towards a future in which they can find a seat at whichever table they belong at.

supportive environment

Our school and community is made up of a diverse group of people - families, educators, and other partners. Together, we create an environment that is caring and nurturing, with a big sense of fun and playfulness.

preparation for the future

To prepare our kids for their future, we want to equip them with the skills, knowledge, and support of their community to flexibly approach their world's challenges, so they can devise effective solutions.

holistic development

Academic skills form only one part of a well-rounded person. Our school cultivates values, cultural understanding, and culture of trust as a foundation for lifelong learning and well-rounded decision making.

values-based guidance

Values serve as a compass for students, guiding them through life's complexities and helping them make ethical choices aligned with the principles of their community.
